

Dr Natacha Borecky

Radiologist

MBBS
Doctor of Radiology

Dr Natacha Borecky graduated in medicine from the Catholic University of Leuven in Belgium in 1989. She gained her specialist qualification in radiology, training in hospitals in Belgium and Switzerland.

Natacha developed a special interest in breast imaging, with a certificate in Breast Disease from Stasbourg, France, in 1993.

Following her move to Australia, she has worked exclusively in breast imaging, initially as an area-of-need radiologist within BreastScreen NSW from 2003 to 2009.

For the 6 years prior to her appointment to Sydney Breast Clinic in 2016, Natacha was the Designated Radiologist for the BreastScreen NSW Sydney West service and was a VMO for several other BreastScreen NSW services.

She is experienced in all aspects of breast disease diagnosis, imaging and interventional procedures, and continues to hold consultant positions within several BreastScreen NSW services and with BreastScreen SA and BreastScreen NT.

Natacha has been actively involved in several professional breast societies, and is a keen teacher.
