

Elizabeth Kenning

Radiographer

Diploma in Radiography,
Certificate of Clinical Proficiency in Mammography,
Certificate IV in Workplace Training

Elizabeth qualified as a Radiographer in Canada in 1978 and migrated to Australia in 1979. She worked as a general radiographer in the public and private sector for over 15 years. She then joined the Western Sydney BreastScreen program when it was first established in 1993.

Elizabeth has since worked as a specialist mammographer in both metropolitan and rural centres in Australia and Canada for over 20 years.

She joined Sydney Breast Clinic in 1999 where she performs mammography and bone mineral densitometry.

Elizabeth has also trained and supervised Sydney Breast Clinic staff in Mammography and Stereotactic biopsy procedures.

She has a special interest in Quality Assurance and its application at Sydney Breast Clinic.
