

Louisa Lau

Sonographer and Mammographer

Master of Applied Science, University of Sydney,
Graduate Diploma of Applied Science (Medical
Ultrasonography), Professional Diploma in Diagnostic
Radiography, Hong Kong Polytechnic

Louisa Lau is a breast sonographer and mammographer who has been working at Sydney Breast Clinic since the 1990's. She qualified as a radiographer in Hong Kong in 1982 and as a sonographer in 1984.

On her arrival in Australia in 1988, Louisa began specialising in women's health.

Her move to Sydney Breast Clinic allowed her to also specialise in the area of breast imaging.

Louisa has actively participated in Sydney Breast Clinic research projects, she evaluated the effect of Toshiba Precision Imaging software on ultrasound images.

These findings were published in the British Journal of Radiology in 2015. As a result she was awarded a Master of Applied Science.

Louisa can also speak fluent Cantonese.
