

## Samantha Cole

### Radiographer, Mammographer and Sonographer

Diploma of Applied Science (Medical Radiation  
Technology) (Diagnostic Radiography),  
Graduate Certificate in Breast Imaging

Samantha has been practicing as a radiographer since 1993 and a mammographer since 1995.

She has completed her qualification in breast imaging from the University of South Australia and is recognised as an accredited Breast Sonographer with the Australian Sonographer Accreditation Registry.

She has worked in both the public and private sectors as a radiographer/sonographer/mammographer over the past 23 years, working at places such as BreastScreen NSW services and in Perth (WA).

Samantha has had a passion for women's breast health leading to her direction of study and now her current appointment to Sydney Breast Clinic in 2016.

She strives to see an early diagnosis so as to bring about the best possible outcomes. Samantha loves the holistic approach of the team at the Sydney Breast Clinic.
