

Teena Vicaretti **Sonographer**

Associate Diploma Diagnostic Radiography,
Diploma Medical Ultrasonography

Teena is a specialised breast sonographer, her interest in ultrasound followed many years of x-ray and CT imaging in both public and private sectors.

Since completion of her ultrasound training, she continues to compliment work in her speciality field of breast imaging with general scanning.

Teena developed a passion for breast imaging and joined the Sydney Breast Clinic team in 2011.

Her aim is to provide high quality scans in conjunction with accurate mammographic correlation skills.

Teena is a proud team member that always endeavours to reduce anxiety and minimise the concerns that patients may have.

She has a special interest in procedures and aims to always provide a professional and caring hand to her patients.
